

# 3Flow taps

Zuben Quad 3Flow tap

How healthy is your family's drinking water? Most people are so concerned with the quality of their drinking water, that few would drink it straight from the tap.

Imagine having fresh, filtered, ready-to-drink water twenty four hours a day seven days a week, and never having to buy expensive bottled water again?

Caple 3Flow filter taps deliver ordinary hot and cold tap water, as well as purified water from one single fitting. The third lever diverts water through the filter. Impurities often found in UK mains water such as chlorine, rust and sediment are removed by activated carbon media. It can also improve the taste of your soft drinks, coffee and tea, as well as your cooking and baking.

The filter cartridge fits under the sink and is easy to change without tools. A small indicator lights up to tell you when to fit a new cartridge and you can order a replacement filter by post for next day delivery. Each cartridge will last approximately six months.

Zuben Quad 3Flow  
3FZUBQ/CH

**General features**  
 monobloc design  
 polished chrome  
 minimum 0.5 bar pressure required  
 quarter turn valve  
 dual flow  
 separate filtered supply  
 (filter included)

**Dimensions**  
 height 350mm  
 reach 200mm
