

granite sinks

Practical sinks for everyday living. Using advanced material technology, our granite sinks are extremely durable, hard-wearing and stain resistant. This functional material also comes in an array of stylish colours to match your décor.

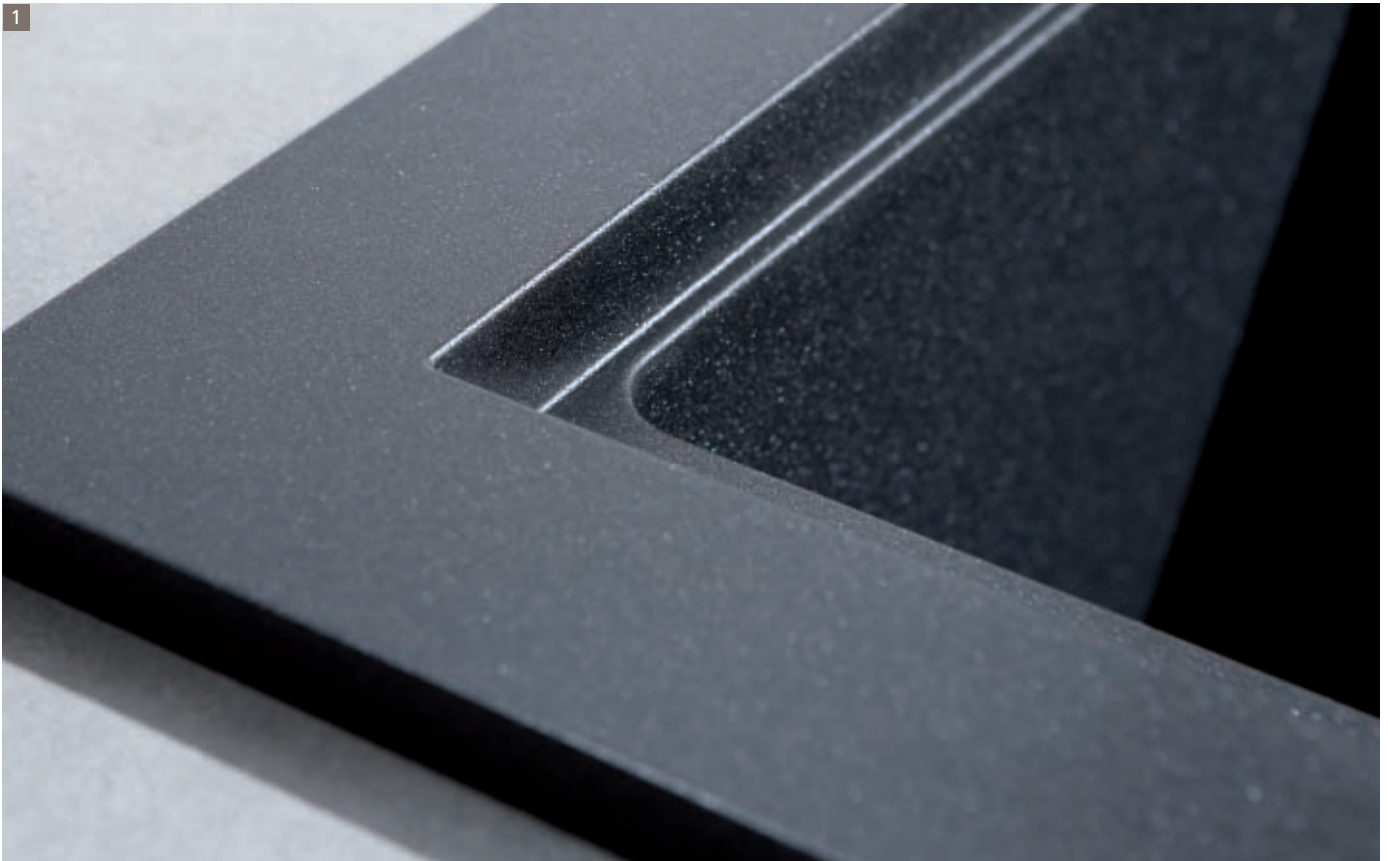

material innovations

As new granite materials and technologies develop, the list of benefits continues to grow. Durable, versatile and stylish, this space-age material is becoming an increasingly popular choice. Our Emerton, Enigma and Eden sinks are all made from Geotech, which is available in three stylish colours - metallic Granite, matt Dune and matt Soapstone.

Product details

1 Emerton sink in Geotech metallic Granite – see p36-37, 2 Enigma sink in Geotech matt Dune – see p40-41, 3 Emerton sink in Geotech matt Soapstone – see p36-37.

The benefits of Geotech – developed using advanced material technology and created from a unique blend of natural quartz and high grade acrylic, the quality of Geotech is unsurpassed.

Natural aesthetics

Offering the beauty of natural stone, Geotech sinks are aesthetically pleasing and can be moulded into ever inspiring designs.

Environmental

Environmental factors have been an important consideration in the development of Geotech. Typically 80% of the material's composition is completely natural and it is manufactured using low energy consumption.

Colourfast

Completely colourfast, both the metallic and matt colour finishes will not fade or dull over time.

Durable

Robust, hard-wearing and impact resistant, Geotech takes the knocks of daily use in its stride.

Cut-proof

Highly practical – this material is both cut and scratch proof.

Heat and burn resistant

Capable of withstanding high temperatures, it is not susceptible to burns, cracking, discolouration, blistering or warping.

Chemical and stain resistant

Geotech is resistant to chemicals and if cleaned regularly, will not discolour or stain.

Easy to clean

Geotech can simply be wiped clean using water and washing-up liquid – no nasty chemicals!

emerton inset sinks

More than just a sink – Emerton is a complete kitchen work centre. Combining advanced material technology with precision design, it is the epitome of form and function.

Featuring elegant, architectural styling, Emerton will look magnificent in any modern kitchen, but that doesn't mean this sink needs to be treated with kid gloves! Manufactured using Geotech – the latest technology in composite material – Emerton's resilience is unrivalled. Non-warping, cut-proof and colourfast, you can go about your daily tasks without fear of damage.

These versatile sinks also come in three beautiful colours, catering for a variety of décors. Our metallic Granite colour offers added depth and sparkle, our matt Soapstone shade provides a sleek sophisticated look and our matt Dune shade offers an understated elegance.

A complete work centre

The optional glass chopping board is designed to fit neatly to the sink – sliding freely along its length, it can be positioned over the drainer or bowl depending on the task at hand. Also available as an optional extra for the Emerton 150, is a handy stainless steel drainer that clips neatly into the small bowl.

A choice of colours

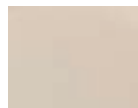

The versatility of Geotech has enabled us to offer this unique material in a delightful selection of colours. What's more, you can be assured that the characteristics of the material will remain, regardless of the colour you select. All of the colours in the range are colourfast and have been specifically hand-picked to reflect the latest fashion trends.

Emerton sinks are available in three beautiful colours; Granite, Soapstone and Dune. Our stunning Granite colour is infused with a sparkling metallic fleck, designed to add a touch of glamour to your kitchen. Equally, as attractive are our Soapstone and Dune matt colours – Dune has a warm and natural feel creating an understated elegance and Soapstone has rich white tones providing the ultimate in sophisticated styling.

enigma inset sinks

Finding a sink that is as cutting edge as your kitchen, need not be a mystery anymore as the Enigma sink has unraveled the secrets of creating a chic and practical washing area.

Softening minimalist design, Enigma sinks offer both crisp and modern lines blended with softly curved edges. Crafted from the incredibly durable composite material Geotech; Enigma is both practical and stylish.

Ensuring there is a colour to suit everyone, Enigma sinks are available in two matt colours, Dune and Soapstone and one metallic colour, Granite.

Providing complete versatility, Enigma sinks can adapt to your needs with various optional accessories. Making food preparation and cleaning up a breeze, the accessories include; a stainless steel strainer bowl, a stainless steel wire basket and a handy wooden or frosted glass chopping board.

eden individual and multiple bowls

The Eden undermounted bowls are practical, versatile and so incredibly good looking that you won't be able resist them.

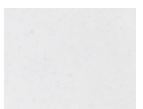

Gracefully curved and perfectly proportioned, Eden sinks are available in six sizes, each one designed to complement the other. Try a small and large bowl together, two medium bowls side-by-side, or if you're short on space – a bowl and a half or a large single bowl could be the perfect solution.

Inspired by the latest design trends, Eden is available in a choice of three colourfast, shades; metallic Granite, matt Soapstone and matt Dune. Eden in lush metallic Granite looks particularly sensational when combined with a chunky Maple wooden work surface.
