

microwaves

Convenient, compact microwaves. Capable of rustling up a hot meal any time of day or night, a microwave is a must-have for the busy family. Caple microwaves are designed to fit perfectly into your kitchen, blending with your suite of appliances.

CM107 combination microwave

Microwaves can do so much more than defrosting, or warming tinned food. Our CM107 gives you oven-like fan cooking as well as grilling. Quick and convenient, to cope with a faster pace of life.

A sense of style

The CM107 is a Sense design – shiny black glass with subtle stainless steel trims and the signature black-spot bar handle. Match this with your choice of Sense oven (p34-38) and warming drawer (p60).

CM107 cooking functions

Fan heat

Cook meals as you would in a traditional fan oven. The possibilities are endless – roast meats, fish, vegetables, pies or cakes. A handy extra oven in a busy kitchen.

Grill

Just like an oven grill, this function cooks a fantastic cheese on toast snack, or browns a cooked dish for a crunchy topping.

Combination cooking

Simultaneously use fan heat with microwave or grill cooking with microwave to accelerate cooking time.

Features

CM106 microwave and grill

Once you become familiar with your Caple microwave and grill, you'll be amazed how versatile it is.

When you're pressed for time, a microwave with grilling functionality really comes into its own. And the real beauty of it is, you don't have to compromise your cooking in the slightest – you can achieve any results you want in a mere fraction of the time.

Features

Stainless steel

The stainless steel interior and exterior gives you easy wipe clean surfaces and contemporary styling. (1)

Glass turntable and grilling rack

The glass turntable is removable for easy cleaning and combines with a handy chrome grilling rack. (2)

Child lock

Digital child lock for safety in the kitchen. (3)

Combination functions

As well as using the microwave and grill functions separately, they can be used in combination, which enhances the cooking of certain foods.

30% microwave + 70% grill

This function is great for cooking dishes that want extra heat on the surface, for instance to cook jacket potatoes so they're crunchy on the outside but fluffy in the middle. Also good for fish dishes to perfect a crisped skin while keeping it tender and freshly cooked.

55% microwave + 45% grill

For dishes that need to be cooked consistently throughout, but that want a browned appearance, this function provides mid-level microwave cooking with a gentle grill. Perfect for puddings, omelettes or chicken – cut out the guesswork.

Microwave and grill with frame CM106
